Yes. Please provide a specific list of what you want and I'll have CDM provide it.

Kristine,  
If it is too cumbersome to provide the native files another option is to just provide pdf figures with higher resolution. Thanks, Jim.

Good afternoon Kristine. I know you are busy gearing-up for tomorrow's meeting, but I want to pass-on a specific request from the LWG: You provided pdf versions of all the Section 3 figures. However, as pdf's we cannot zoom in to see critical details for various sites (e.g., technology assignments). Can you or someone at CDM-Smith provide copies of the Section 3 figures in their native format?

I left you a voice message earlier today with the same request.

Thanks,

Jim McKenna

**Subject:** Portland Harbor Draft Final FS Section 3 and updates to Section 2

Jim and Bob – EPA’s draft modifications to the 2011 Draft FS subitted by the LWG regarding development and screening of the alternatives is provided in the FTP link, below. This information has been combined into a new Section 3 and Appendices C, D and E for the draft Final FS. Per the agreed process between the LWG and EPA, the LWG has 15 days to identify significant issues and 30 days to review and provide comments to EPA from the time they receive FS Section 4. Therefore, the LWG is to identify significant issues by August 28, 2015, and provide comments to EPA by September 8, 2015. Additionally, if you have any technical issues that you would like to discuss in this time frame, please contact me. We already have three technical sessions scheduled on August 11, 13 and 27. Further, per the agreed process, any issues raised during the 30-day review period are to be resolved within the subsequent 14-day period.

In addition, I am providing updated information for FS Section 2. As we indicated, we have been making modifications to the ARARs table. Attached is the latest version of that table. Additionally, the national AWQCs for human health have been finalized, so the attached PRG tables have been updated to reflect those numbers. We have also updated Figure 2.2-2 and some text in Section 2, which are also attached.

Regards,

Kristine Koch
